This Publication Is The Product of A Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

This Publication Is The Product of A Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

The Ideal City

ON HAMPTON ROADS

The Ideal Harbor

COUNTY SEAT OF NORFOLK COUNTY

Old in Tradition — Central in Position — New in Ambition

By the Portsmouth Chamber of Commerce, Inc., Portsmouth, Va.

HISTORICAL

THE City of Portsmouth was founded in 1752 by Colonel William Craford, a justice of the Norfolk County court. In the original survey the four corners of High and Court streets were dedicated to public purposes—the northeast corner, now occupied by the Hotel Monroe, for a courthouse; the southeast corner for a market house; the southwest corner for the Trinity Church, and the northwest corner as a site for the county jail. The city grew slowly until 1900, when its population is given as 17,000. In 1910, due partly to natural growth and partly to annexation, the population had increased to 33,000. Today the population is approximately 61,000. At present within a radius of fifteen miles this section has a population approximately of 400,000.

POINTS OF INTEREST

The historical Dismal Swamp with Lake Drummond in its midst is at the door of Portsmouth in Norfolk County. The two together recall to the mind "The Lady of the Dismal Swamp," that musical poem written by Sir Thomas Moore in the year 1804. The Dismal Swamp Canal, which has great future possibilities, was undertaken by George Washington (Washington died in 1799), but was not finally completed and opened to traffic until 1826.

In Portsmouth is also found the house which was occupied by the father of Grover Cleveland, who was pastor of the First Presbyterian Church in Portsmouth. The site of old Fort Nelson, a historic Revolutionary fortification, is found on the Naval Hospital grounds.

The main building of the Naval Hospital, constructed in 1823, is a splendid example of classical architecture and an ornament to the city. Trinity Church, originally built in 1762, is the oldest building in the city and one of the oldest in the country, with a continuous record as a parish. Monumental Church is the oldest Methodist Church in the South, having been organized over a century ago.

The Roman Catholics have a handsome house of worship on High street, which is one of the most imposing church buildings in the South. The first congregation seems to have been organized about the time of the Revolutionary War on the present site at the northeast corner of High and Washington streets. The congregation consisted of a few French and Irish families and was first attended by priests from Norfolk.

There are a number of historic residences in the city, the best known of which is possibly the brick mansion on Swimming Point. It is thoroughly authenticated that this house was the birthplace of Commodore Richard Dale.

COMMERCIAL AND INDUSTRIAL ADVANTAGES

Portsmouth has adequate banking facilities, which are a necessary adjunct to manufacturing concerns and general business as well as the community at large. The banks of the city have high standings and are in a flourishing condition.

Portsmouth is a part of that great body of water, the historic Hampton Roads, which in depth, extent and climatic conditions, is ideal and unexcelled. A circular issued by the National Rivers and Harbors Congress calls Hampton Roads a "World Port in the Making." It is already conceded both in natural advantages and business to be one of the greatest ports in the United States. It can be made one of the greatest in the world. Ships of all nations come into this port for cargo or for bunker coal or for a harbor of refuge in case of violent storms. The harbor is always free from ice. It is the best natural harbor on the Atlantic coast, the least congested, and the most accessible. From Pinners Point to Pig Point are many miles of undeveloped water front which in time will be lined with piers and slips. Portsmouth may thus take care of the commercial overflow from other cities of the United States for years to come, so Hampton Roads is a most valuable asset not only to Tidewater Virginia, but of the entire State and nation.

Downtown High St.—Portsmouth Five Miles Long

AMUSEMENT AND RECREATION

The city has a splendid park provided by the Federal Government in the grounds of the Naval Hospital which, through the courtesy of the commandant, is open to all citizens on Sunday as well as week days. In addition, the city has provided and maintains four playgrounds—two for white and two for colored children. A city park has been developed on Bain's Creek, west of the city, which as one of the most attractive in the South, having playgrounds, athletic fields, drives, walks, rest and club houses. A country club has also been organized, and a splendid and commodious club house has been erected. Two golf courses have been developed.

BUSINESS ORGANIZATIONS

The city is well represented in this respect. The Chamber of Commerce, the Rotary Club, the Kiwanis Club, and the Retail Merchants' Association are in a flourishing condition and have energetic memberships.

In the way of railway transportation Portsmouth has four great trunk lines terminating within its limits—the Pennsylvania, the Southern, the Atlantic Coast Line and the Seaboard Air Line. The general offices of the Seaboard Air Line and its shops are located in the city. In addition, all roads are connected with the city by a great belt line which gives unexcelled advantages for manufacturing and wholesale business. This belt line has a trackage of thirty-six miles and by its use the Norfolk and Western, the Chesapeake and Ohio, the Virginian and the Norfolk Southern are directly connected with all manufacturing concerns situated in the vicinity. This road enables industries to receive their raw materials more readily, to transport their products to destination without change of cars, and has the practical effect of bringing every railroad in the country directly to the doors of all establishments situated on the belt

Photo courtesy of the Virginia Electric and Power Co.

Belt Line Railroad Terminal

line. The industrial growth of Portsmouth has been gradual and the industries that border the Portsmouth Belt Line Railroad are substantial in every way. The Chamber of Commerce is confident that no city has more to offer from an industrial and commercial standpoint than has Portsmouth, when it is considered that many suitable sites are obtainable along the belt line or immediately adjacent to it. Besides the railroads the city is the center of a great system of radiating highways running to North Carolina and to the west and southwest.

Portsmouth has excellent steamship lines running to all parts of the coast and by means of lighter service connects with various trans-Atlantic and Pacific lines running out of its sister city, Norfolk. The principal domestic lines are the Baltimore Steam Packet Company, Bennett's North Carolina Line, the Buxton Line, Inc., Elizabeth City Boat Line, Inland Steamship Company, Old Dominion Transportation Company and the Chesapeake Steamship Company. Portsmouth is approximately 320 miles south of New York city, 175 miles south of Baltimore, and within two hours' steaming time from the Virginia capes, the gateway to Europe.

INDUSTRIES

The great industry in the South in the past has been the Portsmouth Navy Yard, which is situated on the southern border of the city within the city limits. This yard was originally built by the British in the eighteenth century and was known as Gosport. After its abandonment by the British Government it was operated by private parties for some years and then purchased by the United States in 1801. At the beginning of the Civil War, when the city of Portsmouth was occupied by the Confederate forces early in 1861, the yard was burned by the Federal troops on evacuation. It was, however, rebuilt by the Confederates and held and used by them until Portsmouth was re-occupied by the Federal forces in 1862. From this date on it has been occupied by the Federal Government. It is interesting to note that at different times five different flags have flown from the flag pole over this yard—first the British; then the Colonial; then the flag of Virginia; then the Confederate flag, and finally the United States flag. To the yard in recent years has been added a great naval magazine and a series of splendid and commodious buildings for the forces of the United States Marine Corps which are stationed in Portsmouth. The yard is now the best equipped and the most complete in the country and contains one of the two drydocks on the Atlantic coast which is

capable of docking a vessel of the size of the "Leviathan." The navy yard covers approximately 450 acres of ground and all things considered is the most important Federal yard in the country.

At Pig Point, near Portsmouth, is a great ordnance depot which contains many million dollars worth of ordnance stores and which is connected by road and railroad with Portsmouth. This depot is provided with a great wharf over which materials and military supplies may be received and shipped.

Some of Portsmouth's principal industries are as follows:

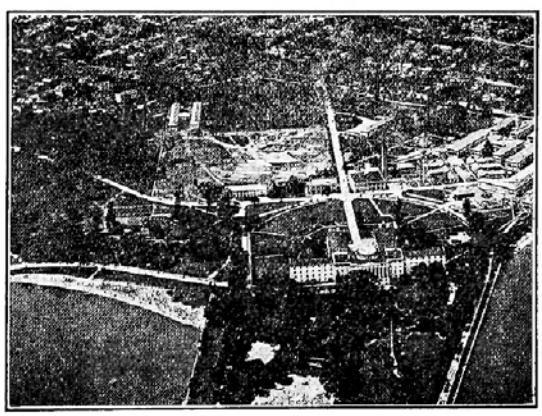
Car wheels
Shipbuilding
Fertilizer
Agricultural
Creosoting
Veneer mills
Hosiery
Dyeing
Railroad shops
Lumber
Government operations
Coffee roasting
Cotton mills
Sea foods
Excelsior
Truck packages
Machine shops
Oil
Copper smelting
Cotton tie and bagging
Paper boxes

out, the violent storms are unknown, the harbor is ice free, and outdoor work is possible at all seasons of the year, and those who must spend the summers in the city have access to nearby beaches by splendid automobile roads and electric railways, which offer a ready and economic means of relief for week-end trips during the hot weather.

MUNICIPAL FEATURES

The city owns a splendid water supply system which furnishes an abundance of water which is considered exceptionally good for use in boilers and has been pronounced by eminent chemists as unexcelled for drinking purposes. This water is obtained from Lake Kilby, near Suffolk, and is pumped to reservoirs in Portsmouth for distribution. Lake Cahoon is available as a reserve supply and is connected with Lake Kilby by a water main through which water may be pumped by electric pumps located near Lake Cahoon. The water supply is sufficient for a city of 150,000 as it now stands and could be extended still further by increasing the height of the dams at Lake Kilby and Lake Cahoon. Under a recent decision of the Council water will be supplied to factories at as low a rate as is given by any other water department in this locatlity.

The city has an excellent engineering department and the work done by that department speaks for itself in the way of many miles of paving, curbing and gutters,



Bird's-Eye View of Naval Hospital Grounds—Portsmouth

Portsmouth is in the center of the greatest peanut growing section in the world. It is also located in the greatest trucking section of Virginia and probably one of the greatest in the country. It is near to and connected by direct roads with the sources of those great raw materials so essential in industry, such as cotton, lumber, coal, etc.

The climate of the city makes it particularly advantageous for industrial and commercial establishments to establish themselves in this locality. The average temperature is about 60 degress for the year; the mean temperature for the coldest month is about 41 degrees, and for the hottest month 79 degrees. As already pointed

sewers and public buildings added to the city in the last two years.

The Department of Public Welfare of Portsmouth is second to none in comparison with cities of the same size of Portsmouth. The health of the community has been maintained in excellent condition and contagious and infectious diseases reduced to a minimum. Through the various activities of this department our food products, especially milk, are carefully inspected, and the milk ordinance of the city of Portsmouth is a model which has been copied by many other cities. The department maintains free clinics and through its system of visiting nurses instructs our citizens in the methods

of avoiding disease in caring for the sick, and in maintaining health.

The public schools of Portsmouth are of a particularly high standing and under the present system management are a source of pride to the entire city. The grammar schools give an excellent grounding in the essentials and in the high school this is carried forward and the scholars given a chance to specialize in various courses. A graduate of the high school may be admitted directly to college or the university without examination.

The Police and Fire Departments of Portsmouth are efficient and well organized. The Fire Department is completely motorized and the efficiency of its work is recognized by all fire underwriters. The Police Department during the past year has made a new record in law enforcement and is steadily improving. A new system for the identification of criminals has been installed during the year.

Portsmouth has the city manager and council form of government, consisting of a small council of seven men elected by the people. This Council in turn elects a city manager, who is the administrative and executive head of the city.

A magnificient, new and modern city market has just recently been opened.

PUBLIC INSTITUTIONS, CHURCHES, ETC

The city, in the way of hospitals, has the magnificient naval establishment in the Hospital Park, which is the greatest naval hospital in the country and available in emergencies for citizens. The commandant of the hospital has always co-operated in every way with the community and the presence of the hospital in the city is an asset. In addition to the Naval Hospital, the city has the advantage of the King's Daughter's Hospital and the Parrish Memorial Hospital, both splendid and up-to-date institutions. Portsmouth has a public library, Y. M. C. A., a Home for the Aged, a City Home, an Orphan Asylum, a Y. W. C. A., a Catholic Club, a Colored Old Folks' Home, a Colored Orphans' Home, and a Colored Day Nursery.

The city has approximately fifty-six churches of various denominations with property valued at approximately $1,500,000.00. Both white and colored people are well provided with places of worship. The following are the principal religious bodies represented: Baptists, Methodists, Roman Catholics, Protestant Episcopal, Presbyterian, Lutheran, Christian, Congregational, Friends, Seventh Day Adventists, Church of God, Holiness bodies, Salvation Army, and Hebrews.

GENERAL

Portsmouth is:

Large distributor of seafoods.

Large peanut center.

Large distributor of vegetables.

The Central Atlantic Port—One of America's finest gateways to the seven seas.

On Hampton Roads—first American port in export tonnage.

An important lumber market.

One of the largest fertilizer centers.

Second port in waterborne tonnage.

Second hardwood lumber port.

One of the closest to the raw material sources of the world.

Operated efficiently as a big industrial enterprise under a city manager form of government.

Rapidly becoming one of the most important of American ports.

Building up a great business through her port by giving dispatch and economical service.

A year-'round resort city.

A good home city.

The place for your new industry.

The city on the Atlantic Seaboard having a practical Belt Line Railroad.

Great coffee center.

Portsmouth Has:

The world's finest harbor, free from ice the year 'round.

Eight trunk line railroads.

One of the most complete belt line systems in the world.

Unexcelled distribution advantages.

Splendidly equipped shipbuilding and repair yards.

One of the largest dry docks in the world.

Largest and finest of America's Naval Hospitals.

Best equipped naval repair yard in the country.

A fine city government—manager form.

A harbor capable of accomodating many thousands of ships.

A harbor with a tidal range of only two and one-half feet.

A harbor free from ice, from dangerous currents—a safe harbor.

A channel of forty-foot depth to the sea—eighteen miles distant.

Assembling and distributing facilities for the making of an excellent jobbing center.

Terminal yard track capacity of 35,000 cars.

An excellent and co-operative labor situation.

In closing it may be stated that Portsmouth is the third city of the State of Virginia. Its location on the west side of the Elizabeth River gives it a position admirably fitted to make it a great city. Being situated on the mainland, its water front may be reached without crossing rivers or drawbridges, and it is the natural terminus of all roads reaching Hampton Roads on the south side of the James River. Its success seems assured and it cordially invites those interested in industry, general business or commerce to visit it and to ascertain firsthand its wonderful advantages.

HILL DIRECTORY CO.'S
(INCORPORATED)

Street and Householders' Directory
AND LIST OF
STREET CAR and BUS ROUTES
OF
PORTSMOUTH

1928

Copyright 1928, by Hill Directory Co., Inc.

In this section the streets are arranged in alphabetical order, the numerically named streets follow immediately the named streets in numerical order, without regard to geographical location, the intersecting streets being shown at proper intersection. The number of each building on the street is given in numerical order, and opposite the number the name of the occupant householder. In the business blocks containing offices and stores the occupants of each place are shown. In some of the outlying districts the street numbers are incorrect, the houses not numbered, or are so scattered that it was not thought advisable to include in the Householders' Directory such streets in this issue. The name of every inhabited street, however, is given with full description. The list includes all alleys, avenues, courts, places, circles, squares, terraces and sub-divisions, giving their location as near and concise as possible.

The profession, business, etc., of individuals and firms, will be found in the Alphabetical section of this Directory.

Every effort has been made to insure accuracy in this issue. If your house does not appear upon its proper street, or if the street upon which you reside does not appear, we will thank you to notify us so that correction will be assured in the next issue.

NOTE.—Dash (——) before name denotes that the house should have a number between the one preceding and the one following it. (* * *) between two intersecting streets show there are no houses between them.

PORTSMOUTH STREET RAILWAY ROUTES

CRADOCK LINE—From Crawford and High, west on High to Middle, west on South to Washington, and over private right-of-way to Cradock intersection, to Afton Parkway, to Shell rd, returning over same route to Middle, south to County, east to Crawford, north to starting point.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

City Directory Don'ts

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

"The Best People in Portsmouth Read the Star"

The Only Portsmouth Paper for Portsmouth People

The Portsmouth Star

Goes into 90% of the **reading homes** of Portsmouth and is read carefully by the substantial Portsmouth people.

Full Associated Press Service by leased wire. N. E. A. and New York World Feature Service. Best Magazine Features.

The Portsmouth Star

Every Evening and Sunday Morning

NORMAN R. HAMILTON, President
A. McK. GRIGGS, Editor
W. BLOUNT DARDEN, Advertising Manager

This Publication Is The Product of A Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

Association of North American Directory Publishers
